Note- the following site-specific rules are in addition to the basic rules in the club Constitution

1. All models must be noise tested and be below 82dBa before being flown
2. During normal flying, models must not cross the 'No Fly' lines A-B-D-E
3. When the showground is being used by anyone else-
  - a. Models must not cross the 'No Fly' lines A-B-C
  - b. Only electric powered models are to be flown
4. Models must not under any circumstances-
  - a. overfly parked cars
  - b. overfly the pilots box
  - c. overfly the pits area
  - d. be flown behind the pilot
5. The access gate from the B3092 must be kept closed and locked at all times
6. All driving on the showground must only be on the marked track and keep to the 5mph site speed limit
